Nursing Students:

You are beginning a most amazing journey of discovery and service as you start your clinical nursing courses. You will develop your intellect and your compassion for others as well as your healing touch. I embarked on this journey and graduated in the class of 1972, and still enjoy my profession and all the places it has taken me. Wishing you the same passion for the nursing profession!

**Patricia Hubert '72/M.S.N. '97/D.N.P. '18**  
**Adjunct Professor, Seton Hall University**

*At this time, I would like to congratulate you on achieving your well-deserved success and goals in the profession of nursing practice. I can assure you that you could not have chosen a more satisfying experience and endeavor. You will find that each day will provide an opportunity for learning experiences and professional growth. Best regards.*

**Teammate Health Exposure Nurse**

**Atrium Health**

*Nursing has meant the world to me as a young woman, then a mother, now a grandmother! It provided an opportunity to work in a profession I loved and to raise a family at the same time because of the variety of positions and more importantly the available hours to work. Welcome to some very interesting courses and what is really special, these courses are given for a reason and are subjects you will really use. Nursing will provide you with feelings of being truly useful and even the smallest achievements are monumental to your patients. So, look forward to this part of your education with the knowledge your chosen field of study will bring you a feeling of great accomplishment and the knowledge that you will be helping people every day you work. Nursing is very fulfilling in many senses - enjoy!*

*The White Coat Ceremony is one of the moments in your life that you will always remember. So much effort and hard work went into being where you are today, and no one can take away this incredible feeling. The journey as a student nurse will sometimes be challenging, but the rewards are always greater. Enjoy this moment, as this is a steppingstone towards a wonderful career of helping others and saving lives. Congratulations on this achievement and continue to show the world just how incredible Seton Hall University nurses are!*

*You are entering a wonderful profession. Yes, these are hard days, especially during a pandemic, but nursing is so worth the effort. Take what you learn at SHU into your career, and you will do well. Use your knowledge and apply it with love and caring.*

**Linda Ulak '75**  
**Faculty Member**  
**SHU College of Nursing**

*Congratulations and heartfelt good wishes to all of you on this special day. We could all tell you many stories of our individual nursing histories but that could be for some other day. For today...just know that you are embarking on a path that will let you know so much about your own compassion and respect for life. You will never forget some of the people you care for nor will they forget you and how you touched their lives. Earn this special honor by working hard every day to become the best RN you can be and keep the tradition going. It's not easy but we are behind you all the way.*
