Certificate in
Information Technology Management
- **undergraduate -**

The **Certificate Program in ITM** is designed for both non-business and business majors at Seton Hall University and other regionally accredited colleges. All businesses use Information Technology (IT) extensively, and a deep understanding of IT is an asset to anyone aiming for a career in business irrespective of their functional specialization. Students choosing this concentration gain advanced IT skills and a deep appreciation for how IT can be used to help businesses succeed. These courses provide solid preparation for entering the job market and starting a career after graduation.

Qualifications:

    ( ) Enrolled as a non-business or business major.
