Quick Guide to the SHU Field Evaluation Form

Our field evaluation form is designed around the **10 national INTASC standards**, the **CEHS Conceptual Framework (CF)** and the **5 AECT standards** for the accreditation of initial preparation for school library media specialists. The standards are in bold and the specific behaviors we associate with them are listed beneath as elements/criteria. (This form is used as a summary document for the midterm and final; it does not reflect a single lesson.)

Please use the following criteria when scoring each item below. Place a check in the appropriate box next to each item listed.

0 Unacceptable (U):	1 Moderately Acceptable (MA):	2 Acceptable (A):	3 Highly Acceptable (HA):	4 Target (T):
Candidate has significant weaknesses in teaching and unproductive, ineffective use of the element(s) to further student learning.	Candidate demonstrates minimal growth , from the start of the semester, in their teaching related to the elements. Occasional use of the element(s) occurs, but a true understanding about its value and purpose to enhance student learning is limited .	Candidate demonstrates appropriate growth , from the start of the semester, related to the elements. Improvement in consistency and depth are needed, but positive and effective work to support student learning is evident .	Candidate demonstrates significant growth , from the start of the semester, in their teaching related to the elements. They positively, consistently and effectively use of the element(s) to support student learning. Their performance is noteworthy for its professional and reflective quality.	Candidate consistently and confidently exceeds expectations for someone learning the profession. Their actions, thinking and organizational planning are at a level far beyond their peers and resemble a more experienced practitioner. They demonstrate a deep understanding of the elements/criteria and how to apply them in support of student learning.

FINAL GRADES FOR PRACTICUM FIELD EVALUATION

At the end of the practicum field experience, the certified library media specialist and university supervisor submit a final grade which becomes part of the final assessment of the candidate's field experience. Determining a grade which is indicative of performance is always difficult. It may be helpful to point out, however, that the candidate is still a student who has not yet had the opportunity to develop the expertise which can be expected of an experienced school library media specialist. *Therefore, grades should reflect potential*, as indicated by such factors as ability, scholarship, teaching skills, organization and responsibility.

Suggested interpretation of the final grade is as follows:

- | | |
|------------------|---|
| A or A- | Final attainment of "highly acceptable" in most respects, possibly a few "exceeds expectations" and unacceptable in none. In your opinion, the student is a highly desirable candidate for any school system. |
| B+ ,B, B- | "Acceptable" in all respects with possible points of "highly acceptable" and unacceptable is none. |
| C+, C,C- | "Acceptable" performance in <i>almost</i> all areas with few weaknesses. Shows no major weaknesses which would seriously prevent his or her teaching effectiveness. Any specific reservations should be stated on the narrative portion of the evaluation form. |
| D+, D, D- | "Approaching acceptable" in several important areas. Reservations about recommending for teaching without extensive remedial work in a number of important areas. |
| F | Failure. The candidate does not demonstrate competencies for effective teaching. |
