CONNECTING WITH OUR CUSTOMERS

We continue to evolve to meet the needs of our customers. From Cigna mobile and **myCigna.com** to the new **myCigna mobile app** and beyond – easy access to personal health information on the go helps people be healthier. So they can get more out of life.

Standard mobile phone carrier and data usage charges apply. Cigna's mobile myCigna.com solution is available for employer plans that provide plan customers access to myCigna.com, which includes the personalized Health Care Provider (HCP) directory, contact info, and prescription drug price quote tool (if your plan includes prescription drug coverage through Cigna). The listing of a HCP in the mobile directories available at myCigna.com and Cigna.com does not guarantee that the services rendered by that professional are covered under your specific medical plan. Employees should check their official plan documents, or call the number listed on their ID card, for information about the services covered under their specific plan benefits. Cigna's mobile web solutions are currently not available to employers with plans that utilize the GWH-Cigna network.
