

Learning On-The-Go With Blackboard

Constantly on the go? Spend a lot of time on Facebook? Want updates at your finger tips?

Introducing, the new release of Blackboard Learn (9) which offers two free applications that let users of Facebook, the Apple iPhone or iPod touch take learning on the go. Both applications are safe and secure allowing you to be engaged in your academic life by delivering course updates and other information right to you wherever and whenever you prefer.

Tap in to mobile learning opportunities by receiving updates and alerts on grades, assignments, tests and other information from courses as well as groups and organizations of which you are part of through Facebook or on your iPhone and iPod touch.

Blackboard for Facebook

“You can find out if you have a new assignment, grade, new forum posts, etc., without having to leave Facebook. The Blackboard Learn application also cross-references your courses’ rosters with Facebook to make it easier to connect with your classmates through Facebook.” For more information, read the press release [here](#).

Blackboard for iPhone or iPod Touch

The iPhone app installs on your iPhone or iPod Touch and allows you to access assignments, grades, course documents, and more while on the go in a sleek, mobile interface. For more information, read the press release [here](#).

Both applications will be available to the community after the upgrade to Blackboard 9 has been complete this summer. For more information on other new features Blackboard 9 offers please click [here](#).
