Physical, Mobility, or Chronic Medical Disability
VERIFICATION FORM

Each student requesting accommodations through the office of Disability Support Services is required to submit documentation to verify eligibility under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Amendments Act (2008). As defined by Section 504 and the ADAAA, an individual with a disability is a person who has a physical or mental impairment which substantially limits a major life activity. Academic adjustments and other accommodations are implemented to provide equal access to college programs and services.

In order to determine eligibility, a qualified professional must certify that the student has been diagnosed with a disability and provide evidence that it represents a substantial impact to a major life activity (e.g., caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, working, etc.). It is important to understand that a diagnosis in and of itself does not substantiate a disability. In others words, information sufficient to render a diagnosis might not be adequate to determine that an individual is substantially impaired in a major life activity. DSS requests documentation of a disability for the purpose of establishing disability status, understanding how the disability may impact a student, and providing adequate information on the functional impact of the disability so that effective reasonable accommodations can be determined. Reasonable accommodations are individually determined based upon the information provided by the student in the intake interview and the functional impact of the condition as evidenced by supporting documentation. Prior history of having received an accommodation does not, in and of itself, warrant or guarantee its continued provision. An Individualized Education Plan (IEP) or 504 plan is almost never sufficient documentation of a disability at the post-secondary level.

This documentation form was developed as an alternative to a traditional diagnostic report. If a traditional diagnostic report is being submitted as documentation instead of this form, please refer to the DSS website (http://www.shu.edu/offices/disability-support-services/forms.cfm) in order to view documentation guidelines. DSS expects the following in regard to this documentation form:

- The form will be completed with as much detail as possible as a partially completed form or limited responses may hinder the eligibility process.
- The diagnosis of a medical condition was derived through a formal assessment.
- The assessment information must be current.
- The form is being completed by an appropriate medical professional, such as an internist, orthopedist, or endocrinologist, who is not a relative of this student.
Disability Verification Form for Students with Physical, Mobility, or Chronic Medical Disability

Student’s Name: ____________________________________________________________

What is the student’s diagnosis? _____________________________________________

How long has the student had this diagnosis/condition? _________________________

Date of first contact with student: __________ Date of last contact with student: __________

What is the severity of the condition? ___ Mild ___ Moderate ___ Severe

Explain the severity indicated above: ___________________________________________

What is the expected duration? ____ Chronic ____ Episodic ____ Short-term

Explain the duration indicated above: ___________________________________________

What is the student’s prognosis regarding this condition: ___________________________

Describe any particular procedures used to establish diagnosis that you feel may be useful to us in determining appropriate academic accommodations or services: ________________________________

Provide information regarding the student’s current symptoms that you feel are relevant to our determination of appropriate academic accommodations or services: ________________________________

List the student’s current medication(s), including dosage, frequency, and adverse side effects (if applicable): ________________________________________________________________

Are there significant limitations to the student’s functioning directly related to the prescribed medications? ___ Yes ___ No

If yes, explain: ______________________________________________________________
Provide information regarding the impact, if any, of the condition on a specific major life activity (e.g., learning, eating, walking, interacting with others, etc.): 

State the student’s functional limitations from the condition specifically in a classroom or educational setting: 

Please provide your specific recommendations (based upon your assessment, the student’s clinical and academic history, and diagnosis) for reasonable accommodations that you believe will help equalize the student’s ability to access the SHU’s educational program along with rationale for each: 

Additional information you believe would be helpful in determining the nature and severity of this student’s disability, and any additional recommendations that may assist DSS in determining appropriate accommodations:
