Re: Resolution approving the name change for the Online MPA
2020-FS-11

Date: June 8, 2020

The Office of the Provost is in receipt of the Senate Resolution approving the name change for the Online MPA program, which was passed at the Senate meeting on May 8th.

I agree that the change to a more generic program name, Online MPA, is a strategic consideration in recruiting students to this program. As described, the program offers students managerial and analytical skills useful across various sectors. Given that it was also endorsed by Wiley, Associates, the program's online partner, I also accept the resolution that the name should change as indicated.
