# General plan information

You and your eligible dependents have emergency dental service coverage for out-of-area emergencies.<sup>3</sup> Your out-of-area emergency benefit (typically limited to \$100 per person) is for services to relieve pain until you can return to see your general dentist.<sup>4</sup> Standard plan limitations, exclusions and copayments may apply.

<sup>&</sup>lt;sup>1</sup> In AZ, MD, and TX, if you do not select a dentist when you enroll, we will choose one for you.

<sup>&</sup>lt;sup>2</sup> If you have not yet been assigned to a DeltaCare USA general dentist, you can do so by visiting any DeltaCare USA general dentist that is accepting new patients. When your selected dentist files a qualifying claim, you will be added to their roster and they will become your assigned DeltaCare USA general dentist. Once assigned, you must visit this dentist for future visits to receive benefits.

<sup>&</sup>lt;sup>3</sup> State-specific minimum distance requirements may apply.

There are no exclusions for most pre-existing conditions, except work in progress. Treatment in progress includes services such as preparations for crowns or root canals, or impressions for dentures. If you started treatment before your plan's effective date, you and your prior dental carrier are responsible for any costs. Some DeltaCare USA plans may cover in-progress orthodontic treatment.

# Glossary

Here are some common terms that will help you understand your plan:

Authorization: The process by which Delta Dental determines whether a procedure or treatment is a referable benefit under your plan. Your assigned general dentist must obtain prior authorization from us to refer you to an out-of-network specialist or out-of-network orthodontist. Services performed by an out-of-network dentist, specialist or orthodontist that are not authorized by us will not be covered.

**Copayment, or copay amount:** The fixed dollar amount a member is responsible for when receiving treatment.

DeltaCare USA dentist: A dentist who is a member of the DeltaCare USA network. These dentists have contracted with Delta Dental and agreed to accept negotiated fees for the services provided to DeltaCare USA members. You must visit a DeltaCare USA dentist to receive plan benefits.

Diagnostic and preventive services: A category of dental services that includes benefits for oral evaluations, routine cleanings, x-rays and fluoride treatments. There are low or no copayments for these services to encourage you to seek regular care and prevent problems from developing.

**Effective date:** The date your dental plan becomes active. Also, the date a member becomes eligible for benefits.

Limitations and Exclusions: Limitations are usually related to a specific time or frequency — for example, a plan may cover only two cleanings in a 12-month period or one cleaning every six months. Exclusions are services not covered by a plan.

(Dental) Referral: Directing a patient to a dental specialist by a general dentist. When specialty dental care is needed, your general dentist will refer you to a trusted specialist in the network.

Specialist services: Services performed by a dental specialist, such as oral surgery, endodontics, periodontics or pediatric dentistry. When specialty dental care is needed, your general dentist will refer you to a trusted specialist in the network.

<sup>&</sup>lt;sup>4</sup> In TX, there is no limit on the number of miles or on the dollar amount per emergency.

 $<sup>^{5}</sup>$  In TX, there is no exception for work in progress for covered DeltaCare USA benefits.
