Marie Kondo effect in Historical Perspective

The Netflix show, Tidying Up with Marie Kondo, has become an overnight sensation garnering media coverage from news organizations like the New York Times, the Atlantic, and the Guardian. This talk goes beyond the hype to investigate the history behind the cultural assumptions that make Marie Kondo’s message of minimalism such a smash hit among many who have been inspired to discard 75% of their belongings and a lightning rod for criticism by those who decried it as a form of modern-day Japanese exceptionalism. This presentation will argue that Marie Kondo’s show is just the latest addition to a long legacy of works that casts Japan as the site of “Eastern Spiritualism” that survives in the face of modern capitalism. Hosted by Dr. Anne Giblin Gedacht, History Department.
