BIOGRAPHY OF MOTHER SETON

(1774 – 1821)

Elizabeth Ann Bayley was born August 28, 1774 in New York City. Her father, Dr. Richard Bayley, was a prominent physician and surgeon and the first Health Officer in New York City. Her mother, Catherine Charlton Bayley, the daughter of an Episcopal minister, died May 8, 1777 leaving three children, Mary 7, Elizabeth, 2 years, 9 months, and an infant, Catherine, who died two years later.

A year after his wife died, Dr. Richard Bayley married Charlotte Amelia Barclay. They had four children. Mary and Elizabeth spent their summers with their Uncle William Bayley at the Pell Bayley House in New Rochelle, New York. Dr. Richard Bayley died of yellow fever in 1801.

Elizabeth Bayley married William Magee Seton, a wealthy shipping magnate on January 25, 1794. They had five children: Anna Maria (May 3, 1795); William (November 25, 1796); Richard (July 20, 1798); Catherine (June 28, 1800); and Rebecca (August 20, 1802).

William Magee Seton suffered financial ruin and died of tuberculosis December 27, 1803 in Italy leaving Elizabeth a poor young widow with five small children.

Anna Maria, the eldest daughter, at 8 years of age, went to Italy with her parents where her ailing father died. She became affectionately called Annina by her mother. Anna Maria, as her father, died of tuberculosis March 12, 1812.

Elizabeth Seton, raised in the Episcopal Church, converted to Catholicism. She received her first Holy Communion in March 25, 1805. To raise and educate her own children, she became a teacher and wanted all children, boys and girls, to receive free education. At the Pace Street House in Baltimore she founded her first Catholic school.

On March 25, 1809 Elizabeth Seton pronounced vows of poverty, chastity and obedience. Henceforth, she became known as Mother Seton. She began the Sisters of Charity of St. Joseph on July 31, 1809 at the Stone House in Emmitsburg, Maryland.

Mother Seton established St. Joseph's Academy, the first Catholic parochial school in the United States.

Elizabeth Seton died of tuberculosis on January 4, 1821 at the age of 47. Her remains are sealed in the Basilica of St. Elizabeth Ann Seton in Emmitsburg, Maryland.

In September 1975, Elizabeth Seton became the first native-born American to be canonized as a saint. A tapestry bearing her image hung over the entrance to St. Peter's Basilica in Rome.

BRIEF HISTORY

Seton Hall University was founded in 1856 by Bishop James Roosevelt Bayley, the first bishop of Newark, who named it after his aunt, Elizabeth Ann Seton, a pioneer in Catholic education and the first American-born saint. The University is the oldest diocesan university in the United States. Nestled on 58 acres in the suburban village of South Orange, New Jersey, Seton Hall's campus is home to eight schools and colleges: the College of Arts and Sciences, the College of Education and Human Services, the College of Nursing, the John C. Whitehead School of Diplomacy and International Relations, the School of Graduate Medical Education, the Stillman School of Business, Immaculate Conception Seminary School of Theology and University College. Seton Hall's ninth school, the School of Law, is located in Newark, New Jersey.

From its original enrollment of a handful of students, Seton Hall grew rapidly. During its first 12 years, the College had enrolled over 500 freshmen from 17 states and six foreign countries. Seton Hall has always reflected the growing ethnic scope of its students and the increasing diversity of the Church and society it has served. In the 19th century, in spite of setbacks, major fires, lean times and the Civil War, the College continued to expand. By 1937, Seton Hall established a University College. This marked the first matriculation of women at Seton Hall. The University became fully coeducational in 1968.

The years after World War II witnessed unprecedented growth for Seton Hall as it responded to the needs of thousands of veterans seeking higher education. The College was organized into a university in 1950, comprising the College of Arts and Sciences and the schools of Business, Nursing and Education. The School of Law opened its doors in 1951 and the John C. Whitehead School of Diplomacy and International Relations was established in 1997, and formally named in 2002.

The 1950s and 1960s saw the modernization of a large number of facilities and the construction of the library, science building, residence halls and the University Center. Many new programs and majors were inaugurated, as were important social outreach efforts. New ties were established with the private and industrial sectors, and a growing partnership developed with federal and state governments in creating programs for the economically and educationally disadvantaged.

The 1970s and 1980s continued to be a time of growth and renewal. New business and nursing classroom buildings and an art center were opened. In 1984 the Immaculate Conception Seminary returned to Seton Hall, its original home until 1926, when it moved to Darlington. With construction of four new residence halls between 1986-1988, and the purchase of off-campus apartment buildings in 1990 and 2004, Seton Hall now provides living space for approximately 2,100 students.

The physical development of the campus continued in the 1990s. In 1994, construction was completed on the \$20 million, four-story Walsh Library. Seton Hall houses its College of Education and Human Services, Stillman School of Business, Center for Public Service, and the Departments of Sociology and Anthropology, Psychology, and Political Science in a facility now called Jubilee Hall to commemorate the University's Sesquicentennial in 2006. The Class of 2007 was the 150th graduating class in the University's history. A new core curriculum and a slate of potential initiatives lie ahead for Seton Hall, as well as the conclusion of an historic capital campaign that will fund scholarships, campus expansion and science and technology teaching and research for decades to come.

The 1956 centenary history of the University prophetically concluded with these words: "Seton Hall University's great boast and claim to fame is not predicated on expansion, buildings or even curriculum. It lies rather in the hearts and minds of a dedicated and devoted faculty." Seton Hall's history has been one primarily of people: students and faculty living and working together in a community of learning, a community rooted in a Catholic tradition that is a home for the mind, the heart and the spirit.*

NSSE DASHBOARDS

National Survey of Student Engagement 7-year Review

NSSE: Seton Hall has participated annually in the national assessment project known as NSSE (pronounced “nessie”) referring to the National Survey of Student Engagement (NSSE), for seven years. The survey, designed by George Kuh and colleagues at the University of Indiana, asks students not to rate their courses or curricula in terms of satisfaction with various aspects; rather, it asks them to quantify their participation in and opportunities for experiences and learning environments that are active and collaborative, enriched and challenging – to *quantify*, in essence, the extent that their courses and coursework ‘pull them in’ via pedagogy and practices known to lead to deeper levels of learning. Rather than students assigning subjective satisfaction ratings to professors, courses, or programs, instead they respond to concrete questions on the frequency with which they encounter certain features in their educational environment and the extent to which they personally have participated in the activities and behaviors attendant.

Seton Hall’s NSSE results can be calibrated against national reference values since the project attracts participation wide and varied each year. Accordingly, Seton Hall has the means to see and consider - relative to other institutions – both its successes and challenges in its efforts to invest in, support and foster proven instructional practices. That the survey project is both comprised of behavioral metrics rather than satisfaction ratings, and is nationally calibrated renders NSSE data a valuable resource in the set of institutional level assessment data available for self-study.

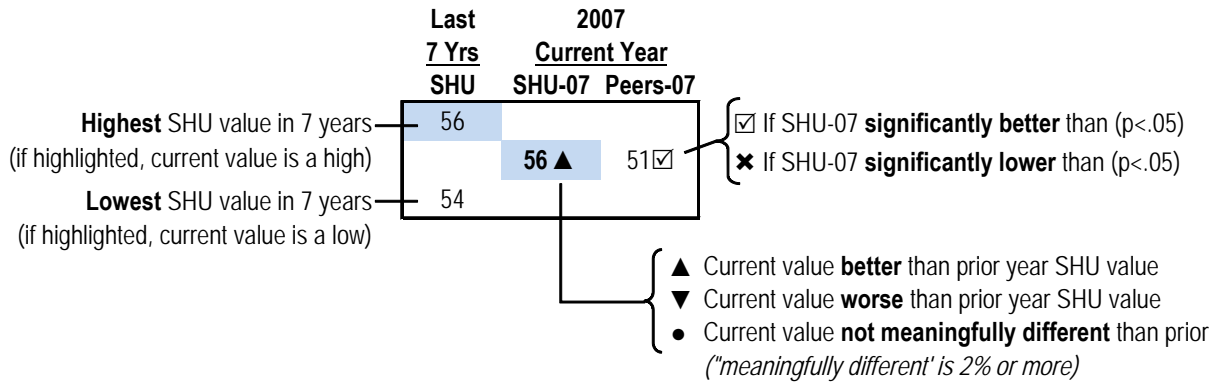

2007: The latest year of NSSE results available are those collected in the Spring of 2007. A total of 610 institutions participated in NSSE in 2007. Seventeen were universities in the same Carnegie category (Basic Carnegie 2005) as Seton Hall. Nationally, the response rate of this Carnegie peer group was 28% for first-year students and 30% for seniors. At Seton Hall, the response rate was 27% for each of the surveyed groups.

Results: NSSE targets two distinct groups of students: **first-year** students and **seniors**. NSSE data are reviewed, calibrated against reference values and reported within these two separately considered undergraduate groups. NSSE uses a subset of the larger set of survey questions and combines responses to those into 5 broad themes referred by NSSE as **benchmarks** (*‘benchmarks of Effective Educational Practices’*). In the dashboard displays that follow, a subset of Seton Hall’s NSSE results are presented for each group surveyed (first-year students and seniors) framed by NSSE benchmark headings. While for reasons of space and readability, not every question used by NSSE to derive its benchmarks is included in the dashboard displays, use of the NSSE benchmarks to *frame the results* ensures balanced presentation of Seton Hall results. The questions included this year are the same as those selected for inclusion in last year’s displays – for reasons of stability across SHU’s first two years of employing this form of NSSE summary, question selection was intentionally kept consistent with the prior year. Selections at that time were systematic and balanced, with all highest and lowest SHU outcomes (relative to Carnegie peers) included, leaving room for about half of the remaining questions, those where SHU outcomes were moderate, to be shown also.

Format: The trend indicators within each dashboard cell give simple synopsis of where SHU stands relative to two different types of reference data – the first: SHU relative to itself, with reference to its own historical data over the entire 7 year period of participation; and the second: SHU relative to its peers, with reference to averages reported by NSSE (for 2007) across all institutions participating in NSSE that are in Seton Hall’s same Carnegie classification category. A separate legend page includes a detailed key for the Seton Hall NSSE dashboard format.

NSSE DASHBOARD KEY

Legend

"Peer" values are values calculated across the set of Carnegie doctoral-intensive universities that participated in NSSE in spring 2007 (listing by name of institutions available from Office of Institutional Research).

Additional Note

Whenever a trend direction indicator is shown followed by a ^, a positive gap between SHU and its peers exists, is being maintained, and is judged sufficiently large to influence the choice of trend indicator. For example, ●^ signals that a ▼ could have been chosen since the 2007 value is lower than the 2006 value by more than 2%. Closer review reveals that SHU continues to maintain the large positive diff from averages of SHU Carnegie peers. Accordingly, ●^ (instead of ▼) appears.

Adjustments of this kind appear in a small number of cells (4 on the First Year Dashboard, 3 on the Senior Dashboard) to avoid suggesting negative trend when sustained positive is the case.
